RE: Matthiessen and Hegeler Zinc Company Site, LaSalle, Illinois
General Notice of Potential Liability

Dear Sir:

The United States Environmental Protection Agency (U.S. EPA) has documented the release or threat of release of hazardous substances, pollutants and contaminants into the environment from the above-referenced facility, and is planning to spend public funds to investigate and control these releases. This action will be taken by U.S. EPA pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §9601 *et seq.* (CERCLA), as amended by the Superfund Amendments and Reauthorization Act of 1986, Pub. L. No. 99-499, 100 Stat. 1613 (1986) (SARA), unless U.S. EPA determines that such action will be done properly by a responsible party or parties. Responsible parties under CERCLA include the current and former owners and operators of the facility, persons who generated the hazardous substances and persons who were involved in the transport, treatment, or disposal of the hazardous substances at the facility. Under Section 107(a) of CERCLA, where U.S. EPA uses public funds towards the cleanup of the hazardous substances, responsible parties are liable for all costs associated with the removal or remedial action and all other necessary costs incurred in cleaning up the facility, including investigation, planning, and enforcement costs.

U.S. EPA is currently planning to conduct the following actions at the above-referenced facility:

- 1) Develop and implement a Site Health and Safety Plan and Site Security Plan;
- 2) Conduct personnel and perimeter air monitoring for asbestos and lead during all work activities to protect workers and nearby populations;
- 3) Remove and properly dispose of friable asbestos-contaminated material (ACM);

- 4) Dismantle structurally unsound laboratory building to abate lead dust threat, properly dispose of lead and metal contaminated debris;
- 5) Decontaminate equipment and appropriately dispose of decon-water;
- 6) Conduct post removal sampling and analysis to verify completion of the removal

U.S. EPA has received information that you may presently own or operate the facility or generated or transported hazardous substances that were disposed of at the facility. By this letter, U.S. EPA notifies you of your potential liability with regard to this matter. U.S. EPA may issue a unilateral order under Section 106 of CERCLA, requiring you to perform specified work. Under Sections 106 and 107 of CERCLA, you may be liable for reimbursement of U.S. EPA's costs, for statutory penalties, and for treble damages for noncompliance with such an order. If you are a qualified small business, enclosed is an U.S. EPA Small Business Regulatory Enforcement Fairness Act information sheet which may be helpful if you are subject to an U.S. EPA enforcement action.

If you are already involved in discussions with State or local authorities or involved in a lawsuit regarding this facility, you may continue such activities as you see fit. This letter is not intended to advise you or direct you presently to restrict or discontinue any such activities already underway; however, you are advised to report the status of those discussions.

If you need further information regarding this letter, you may contact Larry L. Johnson of the U.S. EPA Office of Regional Counsel at (312) 886-6609.

Sincerely yours,

A handwritten signature in dark ink, appearing to read 'Linda M. Nachowicz', followed by the initials 'For LW'.

Linda M. Nachowicz, Chief
Emergency Response Branch #2

Supplemental Information for Small Businesses Subject to an U.S. EPA Enforcement Action

The United States Environmental Protection Agency (EPA) offers small businesses a wide variety of compliance assistance resources and tools designed to assist businesses to comply with federal and state environmental laws. These resources can help businesses understand their obligations, improve compliance and find cost-effective ways to comply through the use of pollution prevention and other innovative technologies.

Websites

EPA offers a great deal of compliance assistance information and material for small businesses on the following Websites, available through public libraries:

➡ www.epa.gov	<i>EPA's Home Page</i>
➡ www.smallbiz-enviroweb.org	<i>EPA's Small Business Home Page</i>
